# AMAZON SELLER CENTRAL FBA INTEGRATION PACKAGE

## What's included in the standard package:

### Sales Orders from SellerCentral (Sage200)

New FBA orders placed on the SellerCentral platform that are Shipped will be created within Sage 200 with attached Payment plus associated despatch and invoice.

Our implementation team will work with you to agree mapping rules around customer and product coding, end client delivery address and contact details, required delivery date, couriers, and price. This is a key integration that saves time and reduces errors, ensuring that subsequent messages are built on a solid foundation.

\* Fulfilment by Amazon (FBA) is a service where Amazon will take care of storing, packing and shipping your products, handling customer support and returns.

## Excluded from Package:

The following integration areas are possible but can be done in various ways, meaning scoping would be required with the customer. This can be done as part of a project or as a phase 2 to the package

- Payout Reconciliation
- Additional Countries

If you would like more information on the above please call: 01628 520540 or email: [sales@cindercone.com](mailto:sales@cindercone.com)
