B2C INTEGRATION PACKAGE

The diagram consists of three overlapping circles arranged horizontally. The left circle contains the Sage 200 logo, the middle circle contains the MAGMA logo, and the right circle contains the Shopify logo. A white arrow above the circles points from right to left, and another white arrow below the circles points from left to right, indicating a bidirectional flow of data between the systems.

B2C INTEGRATION PACKAGE

What's included in the standard package:

Sales Orders

Sales Orders from Shopify

New orders placed on the Shopify platform that are Paid and Unfulfilled will be created within Sage 200 with attached Payment. Our implementation team will work with you to agree mapping rules around customer and product coding, end client delivery address and contact details, required delivery date, couriers, and price. This is a key integration that saves time and reduces errors, ensuring that subsequent messages are built on a solid foundation.

Inventory

Inventory to Shopify

Magma will send current stock levels to the Shopify platform from Sage 200. Our implementation team will agree the rules for extracting this information from Sage 200.

Despatches

Despatches to Shopify

Magma will return the tracking reference to the Shopify platform, along with the despatch confirmation. Our implementation team will agree the rules for extracting this information from Sage 200.

Excluded from Package:

Although not available as part of the standard package the following integration areas are available at an additional charge:

- Giftcards
- Multi Currency Solution
- B2B
- Pricelists
- Payout Reconciliation
- Additional Web Stores
